

Harvest of the Month

Pineapple

FUN FACTS:

The pineapple plant produces over 200 flowers in various colors from purple to red. The fruits of these flowers join together to create the pineapple.

The enzyme bromelain, present in raw pineapple, breaks down protein and is a useful meat marinade and tenderizer.

The top of the pineapple, after cleaning and drying, can be planted in soil and a new plant will grow.

This institution is an equal opportunity provider.
